

FAASTeam presents:

Practical Risk Management

The National Transportation Safety Board continues to identify “pilot error” as the primary cause of the vast majority of general aviation accidents. In response the FAA has identified the use of good Risk Management practices as a primary focus in its educational efforts to reduce general aviation accidents. This is reflected in the most recent revisions to the Practical Test Standards emphasizing Scenario Based Training.

In this safety seminar, SCFC welcomes CFI Peter Marshall to discuss FAA's “PAVE” checklist (Personal, Aircraft, enVironment, External pressures). The checklist serves as a simple and effective risk management tool that any pilot can use on a regular basis both in pre-flight planning and while in flight. Peter will address the specifics of the PAVE checklist and show how it can be used to assist a pilot in the recognition and management of the risks of any given flight. Finally, the seminar will discuss several scenarios where PAVE was used by the PIC to increase the chances that a flight could be completed safely as well as a couple of scenarios where the use of PAVE could have improved the outcome of a flight.

Current and aspiring pilots of all levels and

Representative Terry Fiala

aircraft are encouraged to attend.

Presenter Peter J. Marshall has been flying since 2007. He is a CFI and commercially-rated instrument pilot who flies out of San Carlos Airport. When he is not flying, Peter works as a real estate attorney in the San Francisco Bay Area.

San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the SkywayBuilding, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking and call the Flight Center for a ride (650)946-1700.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
